Construction Activities

Runway Safety Area (RSA)

In order to meet current FAA requirements, modifications to RWY 13L/31R must be made to have the appropriate amount of safety area (1,000 feet) at the north end of the runway. This project is in the final design phase. In order for the Runway Safety Area (RSA) Project to begin construction, it is necessary for construction elements to be completed on Taxiway Bravo to allow the Love Field Modernization Program (LFMP) to remain on schedule (both projects cannot be done concurrently). Consequently, construction of the RSA Project will be delayed until the end of 2012 or early 2013.

Taxiway D2

Because of the expanded scope of this project the Txy D-2 area will be closed until June of 2012. This will continue to impact aircraft movement, limiting access to the Lemmon Avenue Runway for the larger commercial aircraft. This area is demolished and construction is moving on schedule.

Water Main Replacement

DWU has contracted with Atkins Brothers Construction to install a 48” water line around Love Field from the Shorecrest Weiss Street intersection to approximately the 8000 block of Lemmon Ave. This will involve a partial closure of Shorecrest from Weiss to Lemmon (in phases) and then one lane of SE bound Lemmon Ave from Shorecrest to approximately Lovers Lane. All work will be competed in phases. Construction has begun and is expected to be completed by November 2012.

Scheduled Runway Closures for Routine Maintenance

- The Denton Avenue Runway (13R/31L) will be closed Saturday April 21, 2012 from 7:00 am to 3:00 pm for maintenance.

Ongoing Airfield Closures

- RWY 18/36 to remain closed through May 2012 but remain available for taxiing.
  TWY D from TWY D2 to TWY B, TWY B5 from TWY D to TWY B, TWY D2 and D3 are to remain closed through May 2012.

Everyday Environmental Tip

Save up errands and shopping trips so you need to drive fewer times. You will be saving money and reducing air pollution at the same time.
**Wildlife Study**

**Wildlife Investigation**

In compliance with FAA requirements, a wildlife study was completed in February and is currently under review by departmental staff. The study identified the wildlife seen at Love Field and how these animals and birds may or may not impact operations. This has been forwarded to the FAA for review.

**Miscellaneous**

- The Dallas Mavericks will be playing the Golden State Warriors at home Saturday evening. As a result, we expect there will be an increase in general aviation activity at Dallas Love Field this weekend.
- Do not miss the Dallas Spring Recycling Round-up this weekend, April 21 and 22 at Fair Park, Gate 9. Bring your electronics, books, used cooking oil, batteries, clothing and more to be recycled.

**LFEAC Meeting Schedule**

The next three LFEAC meetings will be held on the following dates:

- July 12, 2012
- October 11, 2012
- January 10, 2012

Please let me know if you have any suggestions regarding information you would like to have included in this update. Also, if you are interested in some area that we are currently monitoring for our quarterly meetings of the LFEAC or if you have some particular interest in a time frame to be monitored, please let me know and I will try to accommodate that suggestion. **Have a great weekend!**
